**Bowdoin Construction Selected for  
Fresenius Medical Care in New  
Hampshire**

Rochester, NH - Bowdoin was selected for the fitout of a 10,000 s.f. dialysis center for Fresenius Medical Care. The new facility, designed by Lavalle Brensinger Architects, requires extensive underground plumbing and a new slab. The new space will feature 19 dialysis stations, nurse's stations, reception/lobby area, doctor's offices and a kitchen/lunch room. Also included is a reverse osmosis system and SDS piping.

Bowdoin Construction is one of the New England region's leading construction management and general contracting firms focused on providing a solutions based approach to each of our client's specific building needs.
