**Bowdoin Completes Lifetime Brands
Regional Headquarters**

Medford, Massachusetts - Bowdoin recently completed the conversion of a 90,000 s.f. warehouse into the new regional headquarters and showroom for Lifetime Brands, a leading designer, developer and marketer of a broad range of nationally branded consumer products used in the home.

The new facility, designed by LaFreniere Architects, features numerous offices, a large product showroom, photo studio, wax cutting/3-D print room, and a large staff break room with full kitchen. The project required selective demolition and the fitout of all tenant spaces and a new building facade and entrance vestibule.
