Bowdoin Celebrates the Opening of St. Anne's Hospital Pain Management Center

Swansea, MA - Bowdoin Construction recently completed Saint Anne's Hospital's new Pain Management Center in Swansea, MA. The project required pre-construction services in coordination with the hospital, Murphy & McManus consultants and Vision 3 Architects, as well as full construction management services for the fitout of the new facility. Construction of the new center entailed an 11,000 s.f. fitout of a second story space within an active medical environment. The new facility has all new MEP systems and houses 10 exam rooms, 3 procedure rooms, pre-op/phase I recovery, phase II recovery, a private recovery room, nurses' station, business office, doctors' offices and reception area.

Bowdoin Construction is one of the New England region's leading construction management and general contracting firms focused on providing a solutions based approach to each of our client's specific building needs.
