

We're hiring: Design-Build Project Manager

Opportunity to join a dynamic design-build/construction management team that is continuously striving to find better ways to provide value to our customers.

The ideal candidate has the ability to work with the A/E team to plan and execute a project from conception to completion.

Looking for someone who wants to build great projects, with great people - for great people!

Attributes we are looking for:

- Client-focused attitude
- Strong technical construction skills
- Creative problem solver who enjoys challenges
- Knowledge of all trades
- Ability to manage fast paced projects
- Ability to work as part of a team
- Effective communicator

Experience:

Minimum 10 years of experience in the AEC Industry
Degree in Construction, Engineering or Architecture preferred.
